Comments regarding this Instructor:

Things that were good about the course (things to keep for future courses)

Good topics

Very relevant homeworks

Things that were not good about the course (suggestions for improvement)

Could use a little more explanation of new topics when they are introduced
eg what it is, example of what it does and when it's useful

Any Additional Comments (e.g. additional modules you would like to see in the future)

Comments regarding this Instructor:

Baowei was really nice and taught at a fair level 3 at a good pace for all levels of students

Things that were good about the course (things to keep for future courses)

*hands on, we made our own mini programs
I wish we had done more of the more complicated programs like wrappers towards the end*

Things that were not good about the course (suggestions for improvement)

Any Additional Comments (e.g. additional modules you would like to see in the future)

Comments regarding the course:

It would have been helpful to have a better summary of what would be covered ahead of time.
Perhaps helpful to have more time for practice / guided exercises?

Comments regarding this Instructor:

Effective.

Things that were good about the course (things to keep for future courses)

Good breadth of coverage

Things that were not good about the course (suggestions for improvement)

Could have used some more activity in class - Flipped model?
