

## **Physics 102 – Spring 2014 – Recitation module 8**

Watch “What the Bleep do We know?”

To the extent that you can in the remaining time discuss the movie. Here are a few things you might consider/question:

Are the ideas pushed in the movie scientific?

Are the ideas well-supported in the movie?

Are the scientists quoted in the movie acting responsibly?

How does the world view discussed in the movie compare to other world views in your experience?
