

Gordon Fee – Paul, the Spirit and the People of God

Chapter 6 – A People for His Name – The Spirit and the People of God

1. Why is being a part of a church important? How is the church the answer to what Fee lists as the modern world's "trinity": individualism, relativism and secularism?
2. According to Fee, Paul clearly sees "the Saints" or "the church" to be the successors of God's Old Testament "people of His Name"? To what purpose does God create a people and what do those people do?
3. Fee presents Paul's images for the Community of the Spirit: God's Family, God's Temple and Christ's Body. How do these images help us understand the work of the Spirit?
4. What binds God's people together and what must it overcome to create unity and fellowship? Where do the gifts of the Spirit fit in?
5. The importance of relationships is continually stressed in this chapter. What is the role of the Spirit in forging and maintaining healthy relationships in the church?
